

Signature® Slide Printer

Print directly onto slides for more efficient and more accurate processing of lab specimens.

Primera's Signature Slide Printer can significantly increase the efficiency of your lab while helping to reduce the risk of misidentification of specimens. It prints directly onto slides, eliminating handwriting or expensive, difficult to apply labels. You can print text, graphics and logos along with linear and 2D bar codes on every slide you process.

Innovation at a New, More Affordable Price

Even with its high-resolution, full-color printing capabilities, Signature costs less than all other monochrome-only slide printers currently available. For the first time, you can afford to de-centralize slide printing and put an on-demand, direct-to-slide printer at each workstation. You'll reduce the chance of errors, have a more efficient workflow and save time and money by inventorying only white frosted slides.

Several Configurations Available

Printers are available for 3rd party integration as well as in complete, stand-alone systems which include printer, PTLab™ SE software, scanner, keyboard, mouse and mini-PC.

Key Features and Benefits:

- » On-demand, black or color printing
- » Reduce inventory and purchasing activity – your inventory of multiple colors of slides is eliminated since you can now print colors on white frosted slides
- » Prints directly onto slides – eliminates handwriting or difficult to apply labels
- » Small footprint – fits perfectly at the workstation
- » Slides are stored in easy-to-load cartridges – away from dust and other potential contaminants
- » PTLab Software – template-driven software ensures that the exact information you require on the slides gets printed every time; also allows configurable input/output data streams to LIS systems
- » Chemical-resistant ink – ensures reliable identification of slides now and for years in the future

PRIMERA
TECHNOLOGY, INC.

Specifications

Printing technology:	Thermal transfer
Print speed:	Up to 9 slides/minute (monochrome) Up to 5 slides/minute (solid colors) Up to 4 slides/minute (process colors)
Print resolution:	300 dpi
Ink type:	Resin thermal transfer
Ribbon types:	CMYK: 1000 prints Black: 5000 prints
Printable colors:	8 solid colors; plus pattern options
Slide types:	3" x 1" or 25mm x 75mm standard or positive charged, white frosted end, clipped corners
Slide capacity:	100 slides
Output tray capacity:	15 slides
Construction:	Steel frame with powder-coated steel and plastic covers
Cabinet color:	Medical white
Data interface:	USB 2.0
Printer drivers:	Windows™ XP/Vista/7/8
Height:	8.6" (218.4mm)
Width:	7.08" (179.8mm)
Depth:	12.58" (319.5mm)
Weight:	16.8 lbs. (7.62 kg)
Power requirements:	100-240VAC, 50/60 Hz, 60 watts
Warranty:	One year parts and labor

Available Configurations:

- » Printer-only (SKU: 78101)
- » Software kit (SKU: 78209)
- » Stand-alone system kit (SKU: 78205)
- » Bar code scanner (SKU: 78200)
